Description

Services for gender affirmation most often include hormone treatment, counseling, psychotherapy, complete hysterectomy, bilateral mastectomy, chest reconstruction or augmentation as appropriate, genital reconstruction, facial hair removal, and certain facial plastic reconstruction. Not every individual will require each intervention so necessity needs to be considered on an individualized basis. This criteria outlines medical necessity criteria for gender-affirming surgery when such services are included under the member/enrollee' benefit plan contract provisions.

Policy/Criteria

It is the policy of Louisiana Healthcare Connections that the gender-affirming surgeries listed in section III are considered **medically necessary** for member/enrollee when diagnosed with gender dysphoria per criteria in section I and when meeting the eligibility criteria in section II.

- **I.** Gender Dysphoria Criteria, meets A and B
 - A. Marked incongruence between the member/enrollee's experienced/expressed gender and assigned gender, of at least 6 month's duration, as *indicated by two or more* of the following:
 - 1. Marked incongruence between the member/enrollee's experienced/expressed gender and primary and/or secondary sex characteristics;
 - 2. A strong desire to be rid of one's primary and/or secondary sex characteristics because of a marked incongruence with one's experienced/expressed gender;
 - 3. A strong desire for the primary and/or secondary sex characteristics of the other gender;
 - 4. A strong desire to be of the other gender (or some alternative gender different from one's assigned gender);
 - 5. A strong desire to be treated as the other gender (or some alternative gender different from one's assigned gender);
 - 6. A strong conviction that one has the typical feelings and reactions of the other gender (or some alternative gender different from one's assigned gender); AND
 - B. The condition is associated with clinically significant distress or impairment in social, occupational, or other important areas of functioning.

Note: Individuals with a disorder of sexual development (i.e. intersex) and gender dysphoria are not required to meet the following criteria:

- A. Duration of gender dysphoria;
- B. Age requirements;
- C. Duration of prior treatment such as hormone therapy.

II. Eligibility Criteria, meets all

- A. Age \geq 18 years,
- B. Capacity to make a fully informed decision and to consent for treatment; (including, but not limited to, awareness of the potential effects of treatment on fertility) and to consent for treatment:

- C. If significant medical or mental health concerns present, they must be reasonably well controlled:
- D. Evidence the member/enrollee has lived at least 12 continuous months in a gender role that is congruent with their gender identity;
- E. Documentation that member/enrollee has completed 12 continuous months of cross-sex hormone therapy of the desired gender, unless medically contraindicated;
- F. A written referral letter from a qualified mental health practitioner (minimum of a master's degree or equivalent in a clinical behavioral science field granted by an accredited institution, with documented credentials from a relevant licensing board or equivalent) (independent from the surgery group) *containing all* of the following:
 - 1. Member/enrollee general identifying characteristics;
 - 2. Results of psychosocial assessment, including any diagnoses;
 - 3. Duration of referring health professional's relationship with the member/enrollee, including type of evaluation and therapy or counseling to date;
 - 4. An explanation that criteria for surgery have been met, and a brief description of clinical rationale for supporting the member/enrollee's request for surgery;
 - 5. A statement that informed consent has been obtained from the member/enrollee;
 - 6. A statement that the mental health professional is willing and available for coordination of care.
 - 7. The degree to which the member/enrollee has followed the standards of care to date and the likelihood of future compliance
- G. If the request is for genital-affirming surgery, a second referral letter from another qualified mental health professional (indendent from the surgery group)(minimum of a master's degree or equivalent in a clinical behavioral science field granted by an accredited institution, with documented credentials from a relevant licensing board or equivalent), who has independently assessed the member/enrollee is required.

** note: please refer to the requirements of the Qualified Mental Health Professional under the Background section below.

III. Gender-affirming surgeries considered medically necessary when meeting above criteria

- **A.** Procedures those with a male reproductive system for include:
 - Orchiectomy
 - Penectomy
 - Vaginoplasty
 - Urethroplasty
 - Mammaplasty
 - Clitoroplasty
 - Vulvoplasty
 - Labiaplasty
- **B.** Procedures those with a female reproductive system for include:
 - Mastectom oophorectomy

oophorectomyVaginectomy

Salpingo- • Vulvectomy

Metoidoplasty

Phalloplasty

- Hysterectomy
- Urethroplasty

- Scrotoplasty
- Testicular prosthesis
- **IV.** It is the policy of Louisiana Healthcare Connections that revision procedures for affirming gender are **medically necessary** when the revision is required to address complications of a prior gender affirming procedure (wound dehiscence, fistula, chronic pain directly related to the surgery, etc.).
- **V.** It is the policy of Louisiana Healthcare Connections that gender affirming facial procedures will be considered for **medical necessity** on a case-by-case basis when meeting the following:
 - A. Criteria in sections I and II;
 - B. Requested procedure intends to correct existing facial appearance that demonstrates significant variation from normal appearance for the experienced gender. Possible procedures include, but are not limited to, the following:
 - 1.Blepharoplasty;
 - 2.Face lift/brow lift;
 - 3. Facial implants and bone reconstruction;
 - 4. Hair removal/electrolysis;
 - 5.Drugs for hair loss or growth;
 - 6. Hair transplantation;
 - 7. Prosthetic or filler substances to alter contour;
 - 8.Rhinoplasty;
 - 9. Thyroid chondroplasty;
 - 10. Removal of redundant skin
- **VI.** It is the policy of Louisiana Healthcare Connections that the following procedures, when used to improve the gender specific appearance of a member/enrollee undergoing gender affirmation are **not medically necessary** as they are considered cosmetic in nature (not an all-inclusive list):
 - Abdominoplasty
 - Blepharoplasty
 - Drugs for hair loss or growth
 - Face lift/brow lift
 - Facial implants and bone reconstruction
 - Hair removal/electrolysis (except for removal of hair on skin graft donor site prior to use in genital reassignment surgery)
 - Hair transplantation
 - Liposuction

- Prosthetic or filler substances to alter contour
- Rhinoplasty
- Skin resurfacing
- Removal of redundant skin
- Mastopexy
- Thyroid chondroplasty
- Voice modification surgery, therapy or lessons;
- Revision procedures for purposes other than correction of complications

Background

Gender identity is a person's deepest inner sense of being female or male, which for many is established by the age of 2-3 years. Gender nonconformity refers to the extent to which a person's gender identity, role, or expression differs from the cultural norms prescribed for people of a particular sex. Gender dysphoria refers to the discomfort or distress that is cause by a discrepancy

between a person's gender identity and that person's sex assigned at birth (and the associated gender role and/or primary and secondary sex characteristics)^{3,6}.

Treatment to assist people with gender dysphoria is available and can help to find the gender identity and role that is comfortable for them. Treatment is very individualized and may or may not involve gender-affirming surgery or body modification. Treatment options include changes in gender expression and role; hormone therapy to feminize or masculinize the body; surgery to change primary and/or secondary sex characteristics; and psychotherapy. Many people who receive treatment for gender dysphoria will find a gender role and expression that is comfortable for them, regardless if they differ from the sex assigned them at birth.

Guidelines from the World Professional Association for Transgender Health, Inc (WPATH) recommend that genital surgery not be carried out until patients reach the legal age of majority in a given country, and have lived continuously for at least 12 months in the gender role that is congruent with their gender identity.

For referral letters, characteristics of a Qualified Mental Health Professional include all of the following:

- 1. Master's degree or equivalent in a clinical behavioral science field granted by an institution accredited by the appropriate national or regional accrediting board. The professional should have documented credentials from a relevant licensing board or equivalent;
- 2. Competence in using the Diagnostic Statistical Manual of Mental Disorders and/or the International Classification of Diseases for diagnostic purposes.
- 3. Ability to recognize and diagnose co-existing mental health concerns and to distinguish these from gender dysphoria.
- 4. Documented supervised training and competence in psychotherapy or counseling.
- 5. Knowledgeable about gender nonconforming identities and expressions, and the assessment and treatment of gender dysphoria.
- 6. Continuing education in the assessment and treatment of gender dysphoria. This may include attending relevant professional meetings, workshops, or seminars; obtaining supervision from a mental health professional with relevant experience; or participating in research related to gender nonconformity and gender dysphoria.

Converted corporate to local policy.	08/15/202	
Added characteristics of a mental health provider to II.F and II.G. Revised criteria in II.G to allow second referral letter from a qualified mental health provider, rather than limiting to psychologist or psychiatrist. References reviewed and updated. Description of CPT 11970, 19325 revised in 2021. CPT 19324, 58293 deleted in 2021. Replaced "member" with "member/enrollee." Added "and may not support medical necessity" to coding implications. Added 19318 to the list of CPT codes that may be considered part of gender affirming procedures.	2/22	4/10/22
Annual Review. Changed "Last Review Date" to "Date of Last Revision" in the header. Added note before the criteria section stating that individuals with a disorder of sexual development (i.e. intersex) don't need to meet all the same criteria for duration of gender dysphoria, age requirements and duration of prior treatment such as hormone therapy. Incorporated gender-neutral language to the eligibility and criteria section II. A. 1, E. and III. A and B. In II.B., noted that informed consent includes awareness of treatment effects on fertility. Added the word "minimum" to degree requirement in criteria II.F. and G. In II.E, noted that the requirement of 12 months of hormone therapy before mastectomy in adolescents should be considered on a case-by-case basis. Added new criteria in section V regarding facial procedures, and modified the not medically necessary procedures list in VI accordingly. Grammatical changes made to the background with no impact to the policy. "Date" changed to "Revision Date" in the revision log header. References reviewed and updated. Specialist reviewed.	12/22	2/14/23
Removed section II. A. 1., Removed "(not required for mastectomy in those with a female reproductive system; to be considered on a case-by-case basis for those < 18 years)" from section II. E., Updated Background with no changes to criteria.	9/23	11/27/23

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. LHCC makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable LHCC administrative policies and procedures.

This clinical policy is effective as of the date determined by LHCC. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. LHCC retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of member/enrollee. This clinical policy is not intended to recommend treatment for member/enrollee. Member/enrollee should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom LHCC has no control or right of control. Providers are not agents or employees of LHCC.

This clinical policy is the property of LHCC. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, member/enrollee and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, member/enrollee and their representatives agree to be bound by such terms and conditions by providing services to member/enrollee and/or submitting claims for payment for such services.
